Craig Caston
KPRZ Chief Engineer
9255 Towne Centre Dr., Suite 535
San Diego, CA 92121

Dear Craig,

The Board of the Elfin Forest Harmony Grove Town Council just voted to support the request put forth by Jan Denny, a resident of Seaquest (and a former board member) for KPRZ to install a gate to attempt to stop the dumping at this location. Several residents also signed a petition to that effect which Jan forwarded I believe.

As you know from our previous conversations, dumping and occasional bonfires are a serious concern of our community, surrounded as we are by the tin box of native landscapes. The area around the KPRZ towers has been an ongoing concern since every time either you or the community cleans up, more debris seems to materialize right away. There should not be any easement issues in terms of blocking the dirt path adjacent to the antennas since the rest of the parcels are preserved open space owned by OMWD, who could access from the South and/or use a Knox key on the gate itself. We know you share those concerns about the fire risk to your property, and security risk from unauthorized access, and look forward to a positive response.

You might consider augmenting the gate on either sides with placement of large boulders – we have found that technique rather effective to keep out the would-be trespassers (mostly motorized on 2 or 4 wheels) for example on Canyon de Oro a little ways from your property if you'd like to take a look at how those boulders protect the SDG&E gates.

The greater community looks forward to a positive response from KPRZ to Jan's proposal and we stand ready to recognize your corporate contribution as a good neighbor in our communications with the community (newsletter, e-alert messaging, Facebook page) as an added incentive. Thank you for your consideration.

Best regards,

Jacqueline Arsivaud Benjamin
Chair, EFHG TC Board
